

Beach Ceremony

So you want a ceremony on the beach with your toes in the sand. But, you also need music and a microphone system so everyone can hear above the waves and wind. But there's more. There is no electricity close enough and you need to lug the equipment thru the sand.

That's where we come in. We provide beach ceremonies to dozens of brides each year! We do it for you and do it right!

Battery powered sub-system Levels

You can see the prices vary a small amount depending on date and location.
